

Condensed Segment Accounts

Stryker Orthopaedics reporting segment | Unaudited synthetic management information | Amounts in USD millions except per-procedure data.

REPORTING PERIOD	PERIOD ENDED
Q4 2025	2025-12-31
ENTITY	BASIS
Stryker Orthopaedics (synthetic segment)	Management reporting / unaudited

CONDENSED STATEMENT OF OPERATIONS

USD millions	Current quarter	Prior-year quarter
Net sales	897.3	863.2
Cost of sales	324.8	317.7
Gross profit	572.5	545.5
Research & development	63.7	59.6
Selling / administrative	316.7	309.9
Operating income	192.0	176.1
Net income	138.2	126.0

Net sales reflect procedure volume and contractual pricing. The Northeast experienced delayed robotic procedure-kit availability in April, partially offset by recovery shipments in June.

Condensed Segment Accounts

BALANCE SHEET AND OPERATING INDICATORS

Indicator	Quarter end	Comment
Cash and equivalents	105.9	Segment allocation
Accounts receivable	254.8	DSO 51 days
Inventory	180.4	Safety stock rebuilt
Capital expenditure	37.7	Manufacturing cells
Gross margin	63.8%	Mix and discount pressure

MANAGEMENT DISCUSSION

Reconstructive implant demand remained resilient. Sales through ambulatory surgery centers grew faster than hospital channels, while distributor demand was intentionally moderated to normalize inventory.

This packet contains forward-looking assumptions and is not a vendor invoice, purchase authorization, or customer pricing offer. Totals may not add due to rounding.
